

LONDON INSTITUTE of PHOTOGRAPHY

Flexible Professional Photography Course

Guideline

The Flexible Professional Photography Course is particularly popular with students in full-time employment, family commitments and everyone who prefers a more relaxed pace.

It allows students to tailor their own schedule and complete the 10 modules and the 5 mentoring sessions within a period of 2 to 9 months.

Students can choose from the entire range of weekday, evening and weekend modules in the order that suits them best, which allows completing the Flexible Professional Photography Course entirely on weekends.

Please select module dates from the drop-down menus:

Complete Foundation Photography Course

Fashion Studio Photography

Still Life Photography

Portrait Photography

Street and Documentary Photography

Photoshop For Photographers

Photography Careers

Lightroom

Portfolio Printing

Web Design for Photographers

Modules are available as daytime, evening and weekend courses and the times are as follows:

Daytime: Monday, Tuesday, Thursday & Friday, 10am – 4pm

Evening: Monday, Tuesday, Thursday & Friday, 6.30 – 9pm

Weekend: Saturday & Sunday, 10am – 4pm

We recommend to start with the Complete Foundation Module and finish with the Portfolio Printing Module. All other modules can be selected in the order that suits you best.

After we have received the booking we will email you a Flexible Professional Photography Course draft schedule with your selected dates as well as the 5 mentoring sessions and visiting lectures for your approval.

Visiting lectures are usually on the first Wednesday of every month between 7 - 9pm and the mentoring sessions usually directly before or after one of your modules.

We are happy to create a personalised draft schedule for you, just send us an email to bookings@liop.co.uk with your preferred start date and general availability.
